TELEPHONE ENTRY & IP PRODUCTS

You can choose from some of the most advanced communications systems available today including IP intercoms and video-intercoms. We offer conventional telephone entry intercoms or 'No-Phone-Bill' type, for lobby entrance, and/or concierge. We even offer our patented touch-screen solution. No matter what size the project, Alpha Communications® has the systems you need.

EL2000 SERIES Surface Mount Telephone Entry Master Station. Hands-Free with 5" backlit LCD screen. Can accept up to 2,000 codes. Model **EL2000SS** (shown in St. Steel). Also available model **EL2000LB** (Black color), **EL2000LG** (Grey color) and **EL2000LN** (Nickel color).

DPH200W 'Dummy Phone' with flashing RED Light Bar. Typically used with 'No-Phone-Bill' type and AlphaEntry™ concierge systems

AlphaEntry™ v5 PC-Based (Patented*) Touch-Screen Directory and Digital-Dial Entry Intercom or Telephone Entry System (can be used as a stand-alone alphabetical directory only, or as a telephone-entry system or as a front-end to almost any conventional intercom or video-intercom system) Can also be used with the STR™ QwikBUS™ stations and VOIP / IP stations (*U.S. Patent# 7,783,018)

TE903 (shown) Hands-Free Surface Mount Stainless Steel faceplate Telephone Entry Master Station with 100 name directory. **TE904** also available with 200 name directory. Both models allow dialing for up to 750 phone numbers. Can also be used with optional "No Phone Bill" equipment.

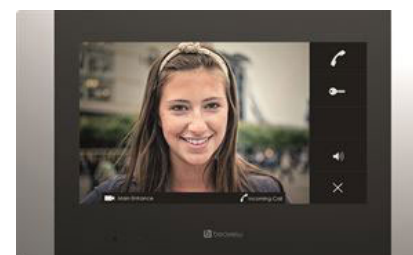

NHEA/IP IP Apartment Intercom Station can be intermixed with IP video monitor stations (PoE powered)

BEOVIEW4 IP 4.3" **COLOR** Touch-Screen Video-Intercom Monitor Station (PoE powered)

TE7210/LCD Hands-Free Surface Mount St. Steel faceplate Telephone Entry Master. Similar to **TE904** (above) but with 700 name capacity LCD Electronic Directory display. Can also be used with optional "No Phone Bill" equipment (model **TE7210NP/LCD**).

BEOVIEW7 IP 7.0" **COLOR** Touch-Screen Video-Intercom Monitor Station (PoE powered)

HOME AND OFFICE INTERCOMS+

Protect your home or office with our wide selection of intercoms and video-intercoms. Alpha Communications® can provide systems ranging from 2 to 9,999+ stations. Choose from conventional type systems, all the way up to programmable microprocessor systems for large commercial applications. Add the sounds of music to make your home or office a nicer place to work or to relax. Secure your property and guard your loved ones with one of our **COLOR** video-intercom systems (with optional Smart Phone apps)!
