

RB8SP / RB8STP

Speaker Dimensions

RB8SP / RB8STP Surface Ceiling / Wall Speakers

The Alpha Communications® RB8SP speaker is a cost effective ceiling (or wall mount) speaker and baffle (grille) combination. The model RB8SP features a high-quality 8 ohm public address and background music speaker, with excellent voice and music response. The RB8STP is the same as the model RB8SP, but also includes a built-in (dual voltage) 25/70 volt line transformer.

The RB8SP series speaker is designed to be installed easily, right on the surface of a ceiling or onto a wall.

FEATURES

- Contemporary square design, even the speaker appears to be square
- White, non-glare finish blends with ceiling materials
- Easy-on studs for attaching speaker to baffle in seconds
- Baffle (grille) manufactured of U.V. stabilized, high-impact polystyrene thermoplastic
- Paintable and non-corroding baffle (grille)
- Push-on nuts furnished for mounting speaker to baffle
- High quality 8 inch diameter (round), 8 ohm voice and music speaker
- 1 year limited factory warranty
- Very competitively priced
