CP202SS Vandal-Resistant Stainless Steel Cover Plate

The Alpha Communications® CP202SS stainless steel cover plate is designed specifically to work with our popular OR202 remote station (from our SM202K Duo Com™ intercom kit). Made from 16 gauge high-carbon brush finish stainless steel, with solid metal push-button, these stations are built to last and to minimize vandalism and abuse.

The CP202SS installs right over the existing OR202 remote station and is secured to the wall with vandal-resistant Torx head type screws. (Requires #8TORX screwdriver tool/tip*).

FEATURES

- Simple Installation, mounts right on surface of wall
- Made of Rugged 16 gauge High-Carbon Stainless Steel
- Tamper and Vandal-Resistant
- Solid Metal Call Button Assembly
- Mounts right over our model OR202 Remote Station
- Metal Mesh Speaker Grille
- Installs with Torx type tamper-resistant mounting screws (provided)*
