

Built-In  
High-Intensity  
Red Flashing  
Neon Ringer  
Lamp Indicator

**WT2833NL (Shown)**

**Note:** the keypad on this phone can be field modified by the contractor to individually dis-able one or more of the keypad buttons to prevent this phone from being used on regular dial-out telephone lines. Please contact Alpha Communications® for detailed instructions on how to dis-able the keypad pushbuttons (if required).

### ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The "Dummy" Telephone(s) shall be Alpha Communications® model WT2833NL. Telephone(s) shall be mounted (surface, or table/desktop). Telephone(s) shall feature electret condenser microphone for exceptional voice fidelity. Handsets that include carbon transmitter or other voice technologies shall not be acceptable. Telephone(s) shall include a high-intensity Red Flashing Neon Lamp ringer indicator, 12 button alphanumeric lighted keypad, audible ringer On/Off selector switch, Tone/Pulse selector switch, modular cord and plug, and audible ringer bell. Telephone shall be F.C.C. approved and shall be finished in an Off-White color. Red Flashing Neon Ringer Indicator lamp shall be clearly visible whether the telephone is desk or wall mounted, and shall activate in conjunction with the ringer bell, or by itself when the ringer bell is silenced. Telephones that feature L.E.D. or non-flashing type ringer indicator lamps shall not be acceptable.

### WT2833NL Wall/Desk Phone with Red Neon Ringer Light

The Alpha Communications® WT2833NL telephones are designed to work as an apartment type telephone intercom station, in conjunction with a telephone entry type intercom system.

The WT2833NL telephones are ideal for use as "Dummy Phones" on "No-Phone-Bill" type telephone entry intercom systems, where the apartment tenant does not have a telephone connected to the phone company lines.

These attractive phones easily surface mount on the wall or on a table or desktop. The Pulse/Tone feature allows its use on virtually any type of phone line, enabling it to activate a lobby electric door release. The Lighted keypad allows its use in dark rooms or at night.

The high-intensity **Flashing Red Neon Indicator Lamp** makes the WT2833NL telephone a perfect solution for hearing-impaired tenants, who cannot hear the normal ringer bell.
