## SF301P Pillow Speaker

The Alpha Communications® SF301P pillow speaker is used primarily with the IR157N room station for NC150N and/or NC200N audio-visual nurse-call systems and the IR311/IR312 room stations for the NC300 series microprocessor nurse-call system. It can also be used with the IR258/IR259 room stations for the NC205 series microcontroller nurse-call system.

The SF301P provides for call placement to the system station master(s) and for TV controls. Simple operation is provided by momentary switches.

To call a nurse or select television channels simply press the pushbutton indicated " " or "TV" as desired. Volume control for TV only may be adjusted as necessary.

## FEATURES

- UL 1069 Listed - 4th Edition standards
- Mylar cone speaker
- ABS flame-retardant plastic
- SPST 10 AMP switches - rated for over 1 million operations
- ESD protected over 20,000 volts
- Hanger and security/bed clip provided
- Standard telephone type 8 conductor cord with modular plug

## OPTIONAL MODEL

**SF301PE** Same as model SF301P but with entertainment MUTE feature built-in.
