IH106N

IH106N Flush Steel Mounting Box

The Alpha Communications® model IH106N is a flush mounting box, made of heavy gauge steel, in a galvanized finish.

It has been used with a variety of nurse-call intercom remote stations, including those in the 'IR150N' series such as IR150N, IR151N, IR152N, IR155N and IR157N (and others).

Currently, it is used mostly with the IR150N remote intercom stations, with the NC150R Area-Of-Refuge (Area of Rescue Assistance) emergency call system(s).

Convenient knockouts on the top and bottom of the box, make it easy to attach to standard electrical EMT box connectors.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The flush back box(es) shall be Alpha Communications®/Tektone model IH106N or approved equal. Box(es) shall be made of heavy gauge steel, in a galvanized finish. Box(es) shall contain convenient electrical knock-outs on the top and the bottom, to attach to standard electrical EMT box connectors.

Contractor shall observe all local and national electrical and building codes.

SPECIFICATIONS
