

**SF330**

### **ARCHITECTS' AND ENGINEERS' SPECIFICATIONS**

Emergency Station(s) shall be Alpha Communications®/TekTone SF330 or approved equal. Operation of all emergency signals shall be accomplished by a short pull on the nylon cord (in any direction). The Red "Call-Placed" L.E.D. indicator shall flash to assure the patient that the call has been properly placed. The SF330 shall feature a stainless steel faceplate with the word 'EMERGENCY' permanently stamped on the front. Reliable, solid-state components shall be provided for electrical connections.

The SF330 shall be UL 1069 listed to the latest 4th Edition standards. Contractor shall observe all local and national electrical and building codes.

### **SF330 Emergency Pullcord Station**

For use in toilets, baths, shower rooms, etc., the SF330 emergency pull station is used to provide a system emergency signal. A call is placed by a pull on the 6' long nylon call cord. The Red call-placed L.E.D. indicator flashes to provide for patient call assurance. Calls are registered on the master station(s) (and duty station(s), if used) via audible and visual signals, as well as local indication on dome lamps. The call may be canceled only at the point of origin. Plug-in connectors provide for simple wiring.

The SF330 is typically used with the HC345C, NC205 and NC300 / NC300II systems. The SF330 is not designed for use in a shower or 'moist' environment.

### **FEATURES**

- UL 1069 Listed - 4th Edition Standards
- Simple, reliable operation
- "Call-Placed" L.E.D. indicator (Red)
- Call cancel only at point of origin
- Call registers at Master Station and on Dome Lamp
- Mounted on stainless steel faceplate permanently stamped with the word 'EMERGENCY'

### **SPECIFICATIONS**

<b><u>Dimensions:</u></b>	Height: 4.50" (114mm) Width: 2.75" (70mm) Depth: 1.00" (25mm) Projects: 0.25" (6.5mm)
<b><u>Construction:</u></b>	Reliable components mounted on a rugged stainless steel faceplate
<b><u>Connections:</u></b>	Plug-in connector
<b><u>Housing:</u></b>	Steel City #52171 box with Steel City #52C14 plaster ring, or Alpha Communications® Model #IH358 box with IH357 ring, or EXACT EQUAL. Vertical mount.
