

SF350B Presence Station

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

Presence station(s) shall be Alpha Communications®/Tektone model SF350B or approved equal. Station(s) shall provide for specific indications of staff presence (green for nurse, yellow for aide), and shall be used to transfer nurse follower from room location to room location. Depressing nurse presence button shall automatically transfer indication of all subsequent patient calls to the remote location and master station. Depressing nurse or aide presence button shall activate lamp(s) on dome light. Reliable, solid state components shall be used and plug-in connectors shall be electrical connections.

The SF350B shall be UL 1069 listed to the latest 4th Edition Standards. Contractor shall observe all local and national electrical and building codes.

SF350B Presence Station

The Alpha Communications® SF350B presence station provides push button registration of presence of nurse (green lamp indication), or aide (yellow lamp indication) at remote locations. The nurse/aide presence indicator unit can also be used to transfer the nurse follower feature (on the NC300 and/or NC300II system) from room location to room location as the nursing staff proceeds with rounds. The depression of the nurse presence registration button automatically transfers indication of all subsequent patient calls to the remote location of the nurse as well as to the master station. Plug-in connectors provide for simple wiring.

FEATURES

- UL 1069 Listed - 4th Edition Standards
- Green push button for nurse indication
- Yellow push button for aide indication
- Automatic nurse follower transfer circuitry (when used with the NC300 / NC300II system)
- Mounted on high-impact white ABS faceplate
