

**SF250 Staff Presence Station**

### ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The staff presence station(s) shall be Alpha Communications®/Tektone SF250 or approved equal. The staff presence station(s) shall have indications for staff presence and shall be used to transfer the staff follower feature from room location to room location. Depressing the staff presence button shall automatically transfer indication of all subsequent patient calls to the remote location and master station. Depressing the staff button shall also illuminate the LED indicator on the presence station and the appropriate dome lamp. Reliable solid state components shall be mounted on an attractive flame retardant type ABS plastic faceplate. Plug-in connectors shall be provided for electrical connections.

### SF250 Staff Presence Station

The Alpha Communication®'s SF250 Staff Presence Station provides push button registration of staff presence at remote locations. The staff presence indicator unit can also be used to transfer the staff follower feature from room location to room location as the staff proceeds with rounds. The depression of the staff presence registration button automatically transfers indication of all subsequent patient calls to the remote location of the nurse, as well as the master station. Plug-in connectors provide for simple wiring.

The SF250 can be used with the NC205 or NC300II series nurse-call systems, for 1 staff presence level only.

### FEATURES

- Push button for staff indication
- Automatic staff follower transfer circuitry
- Flame retardant type ABS plastic faceplate

### SPECIFICATIONS

<b><u>Dimensions:</u></b>	Height: 4.50" (119mm) Width: 2.75" (70mm) Depth: 1.50" (38mm) Projects: .44" (11mm)
