

**'No Phone Line'
Central Equipment**

**PM900
Control Unit With Cabinet**
(for use with TE903NP or TE904NP
Telephone Entry Station
or with DPH100W Concierge Phone)

**ARCHITECTS' AND ENGINEERS'
SPECIFICATIONS**

Control unit(s) shall be Alpha Communications® model PM900 with cabinet. Control unit(s) shall be compatible with the TE903NP, TE904NP and/or DPH100W series lobby/concierge/guard stations.

For 'no phone line' service capability include all of the required components of a standard Telephone Entry System, plus: a PM900 Control Unit, IH996 Relay Board Cabinet (for each 96 lines), RY912 Relay Board (1 per 12 lines/telephones), and a CT925 Connector Cable Assembly (1 per RY912). All equipment should be located in the telephone room. Local phone company shall provide the required RJ71C (12 line) interface jack(s) required.

**PM900 Control Unit
With Cabinet**

The Alpha Communications® PM900 Control Unit with Cabinet is designed to provide 'no phone line capability' when interfaced with the Alpha Communications® TE903NP, TE904NP or DPH100W (concierge/guard) master/phone stations.

FEATURES

- Can be used with either rotary or touch-tone service
- No monthly phone line rental fee
- Provides intercom (from lobby) for tenants that do not have outside telephone line service
- Distinctive double ring differentiates between visitor calls and incoming calls
- Connection for guard/concierge phone
- Multiple entrance capability
- Only two wires to interface with lobby equipment
- Call waiting feature
- DOC and FCC approved
