

WM-36
(shown in Wall Mount position)

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The camera mounting bracket(s) shall be Alpha Communications® model WM-36 or approved equivalent. Mounting bracket shall have fully adjustable pan head and have 360° horizontal and 90° vertical rotation. Mounting bracket shall be used on wall, table or ceiling, and is weather-resistant for indoor or outdoor use. A convenient (captive) camera mounting screw shall be provided for a standard 1/4-20 camera mount.

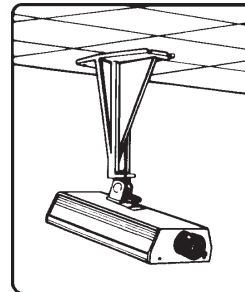

Contractor shall observe all local and national electrical and building codes.

Check with applicable authorities regarding local and federal laws as they apply to party consent and video and/or audio recording.
