IH401 Plastic Desk/Surface Cabinet

The IH401 desk/surface cabinets are designed to work with many of our popular plastic inside master stations, to allow them to be mounted on a table or desktop. The IH401 series desk cabinets can also be used as a sloped surface wall cabinet, where required.

Made from the same durable ABS plastic as our plastic intercom masters and remotes, the IH401 desk cabinets are a stylish addition to our intercom line.

The IH401 desk cabinets are used mostly with the SM404, SM406 and SM411 master stations, but can also be used with the older SM205 (series), SM210 (series), IR804A and DM228 stations.

When surface mounting, the IH401 desk cabinets are predrilled to mount over single and double gang electrical back boxes, or right on the surface of the finished wall. Four (4) self-stick rubber feet are supplied to prevent slippage when the IH401 cabinet is used on a table or desk top.

FEATURES

- Made of Durable ABS Off-White Plastic Finish
- Easy Installation to Master or Remote Intercom Station
- Can be Desk or Surface Wall Mounted
- Works with a Variety of Master and Remote Stations
