AA702 Master Station

AA702 Wall Master Station with LCD Display

Although only the size and weight of a conventional telephone handset, the model AA702 master station combines all essential functions needed for effective internal communication: loudspeaking confidential, and total privacy, when used with the PRO700 series intercom system.

Each station in the PRO700 system is individually programmable, giving full flexibility regarding features and extension numbers. The AA702's display gives access to features like caller identification and message/absence information.

FEATURES

- Clear two-way communications
- Rugged High-Impact ABS plastic finish
- Simple loop wiring
- Can be Surface or Optionally Flush Wall Mounted
- Built-in LCD Display
- Background Music (optional)
- No Central Exchange Required
- All-Call (standard)
- Simple to install

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The PRO700 master station(s) shall be Alpha Communications® model AA702 or approved equivalent. Master(s) shall be made of high-grade, impact-resistant Beige ABS plastic with a satin finish. Master(s) shall feature a 15-button keypad, built-in LCD display and shall require simple loop wiring, with no central station required. Master(s) shall be surface wall mount type and can be flush wall mounted using an optional model BF636 wall mounting plate with model BBF602 flush steel backbox. System shall allow for master(s) to have (optional) background music, from a separate (compatible) music input source.

System shall power off of a single PSDC24 series 24VDC system power supply. The PRO700 series system shall be expandable to a maximum of 40 total master and/or remote stations.

Contractor shall observe all local and national electrical and building codes.
