

HS-5P

HS-5P Paging/Talkback Horn

The Alpha Communications® HS-5P paging/talkback horn is an economical indoor/outdoor unit that can be used with a variety of public address and intercom systems. Each HS-5P horn can handle up to 15 watts of audio power. Its convenient 8 ohm impedance makes it ideal for use as a mini-paging horn or with an alarm siren driver module. The HS-5P is made of durable (White) ABS plastic, and comes complete with a swivel mount bracket for wall or pole mounting. Depending upon the system it is used with, the HS-5P can also be used as a talkback speaker.

A frequency response of 450 to 10,000 Hz. assures crisp-clear communication, and even basic music capability.

FEATURES

- Contemporary Design
- ABS Plastic Finish - Will Not Corrode Outdoors
- 8-Ohm Impedance
- Built-in Swivel Mount Bracket
- Very competitively priced
