### OR610 / OR610W Outdoor Remote Stations

The OR610 and OR610W Outdoor Remote Stations provide for call capability and two-way, hands free communication to inside master stations for a variety of Alpha Communications® intercom systems.

Used typically as an outside door station, the OR610/OR610W are rugged, dependable units designed to provide natural, clear voice communication, simple push button operation, and hands free reply. The stations are ideal for outdoor use, in office, home, plant, warehouse, retail business, and similar applications. The OR610/OR610W are designed to be 2-wire type remote stations, and can only be used with systems that will work with a 2-wire remotes, such as our SM201B and SM400 series systems.

Operation of the stations is simple and efficient. The caller, by pressing the call button, causes an audible signal at the master stations location. The identity of the caller may then be determined and entry to the home or building permitted, if so desired, and if system in use permits.

### FEATURES

- Simple, push button operation
- Momentary call button/switch
- Hands-free reply
- Clear voice quality
