IH110R

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The flush back box/ring/housing shall be Alpha Communications®/Tektone model IH110R or approved equal. It shall be made of heavy gauge steel, in a galvanized finish. It shall contain convenient electrical knockouts on the sides of the housing, to attach to standard electrical EMT box connectors.

The IH110R shall be open in the back to allow for equipment clearance and wiring if needed.

Contractor shall observe all local and national electrical and building codes.

IH110R Flush Steel Backbox/Housing

The Alpha Communications® model IH110R is a flush mounting box/ring/housing, made of heavy gauge steel, in a galvanized finish.

It is used with a variety of intercom remote and master stations, such as DM228, SM205 (series), SM210 (series), SM404, SM406, SM411, IR804A (and others).

Convenient knockouts on the sides of the housing, make it easy to attach to standard electrical EMT box connectors. The back is open to allow for equipment clearance and wiring as well.
