Electronic panel(s) shall be in satin finish brass, complete with microphone and loud-speaker, 15-button keypad, 4-line backlit LCD display indicating instructions and selected names, UP and DOWN scroll buttons, Call and Reset buttons. The built-in electronic circuit shall be on interchangeable cards and shall contain external and internal volume controls. Unit shall be flush mount type and shall include the flush back box/housing. Unit shall require the model 950 field programming unit.

Contractor shall install as per manufacturers instructions and shall observe all local and national electrical codes.

**944T Series Video Digital-Dial
Satin Brass Finish Digi-Bus™
Intercom Lobby Entry Panel**

The Alpha Communications® 944T (Digi-Bus™) Series Digital-Dial Intercom Lobby Entry Panel is designed to call up to 1,000 of the 940A or 7110 series (or equivalent) remote apartment handset intercom stations.

Calling to the remote handsets is digital, with built-in electronic directory for up to 1,000 names/users and up to 16 characters each. Each 944T series panel includes a 4-line backlit LCD display indicating instructions and selected names, UP and DOWN scroll buttons, and Call and Reset buttons. The 944T series panel is designed for flush mounting into the finished wall surface and is finished in satin brass finish.
