

**OR501/2**

**ARCHITECTS' AND ENGINEERS'  
SPECIFICATIONS**

Outdoor aluminum 2-button entry station(s) shall be Alpha Communications®/Tektone model OR501/2 or approved equal. Station faceplate shall be solid extruded aluminum in a natural anodized finish. Two (2) momentary action, plastic push-buttons shall be provided for call function. The speaker/ microphone shall be a 2.50" (64mm) mylar cone, high-sensitivity type with excellent voice-frequency response, and shall be protected by a Black ABS plastic speaker grille.

Unit(s) shall be used with the IA543 or PK543A series (or equivalent) apartment house intercom systems.

Contractor shall provide the suitable flush mounting ring (IH102) or flush mounting box (IH101) or surface mounting box (OH700).

All remotes shall be supplied with tamper-resistant mounting screws, requiring a model **S1 screwdriver** for installation and servicing.

**OR501/2 Aluminum  
Outdoor Remote Stations**

The Alpha Communications® OR501/2 outdoor remote stations are a low-cost alternative for a 2-button apartment house entry intercom panel. They are our lowest cost 2-button entry panels. Since there are no nameholders, directories or button markings, and due to its small size, the OR501/2 is a real cost saver. Made of heavy duty extruded aluminum, they are designed to look good and to last.

The OR501/2 stations are normally used with our IA543 or PK543A amplifier, for apartment entry intercom applications.

**FEATURES**

- Simple push button call operation (2 buttons)
- Hands-free reply
- Rugged Extruded Aluminum Faceplate
- Clear voice quality

**SPECIFICATIONS**

**Dimensions:** Height: 7.00" (178mm)
