

DZ209/5

DZ209/10

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The system diode board unit(s) shall be Alpha Communications®/S.T.R.™ DZ209/5 and/or DZ209/10 or approved equal.

The DZ209/5 and DZ209/10 shall be used with the HT2009 or HT3009 (2-wire) handset intercoms, and/or 5661/000 (NoCoax) video-intercom monitors.

The diode boards shall be installed into the lobby entry panel(s), using the provided self-stick mounting tabs. Positive screw terminals shall be used for all wiring connections.

Contractor shall observe all local and national electrical and building codes.

DZ209/5 / DZ209/10 Diode Board Units

The Alpha®/S.T.R.™ DZ209/5 and DZ209/10 diode board units are designed to work with our HT2009 or HT3009 (2-wire) apartment handset stations and/or 5661/000 (NoCoax) type video-intercom systems.

The DZ209/5 diode boards are installed into the lobby entry door stations, to enable standard pushbuttons to be used with the HT2009, HT3009 and 5661/000 systems. The diode boards are provided with self-stick tape to allow them to be mounted in a convenient spot, inside the lobby entry panel(s).

The diode boards allow the pushbutton selective wires to also act as common wires, when the pushbuttons are not being depressed.

The DZ209/5 has 5 diodes and the DZ209/10 has 10 diodes, to allow them to work with 5 buttons and 10 buttons, respectively. They can be mixed and matched in a panel, depending upon the total number of buttons. For example, for a 35 button panel, you would use 3- DZ209/10 boards and 1- DZ209/5 board.

FEATURES

- Easy Installation
- Comes with Self-Stick Mounting tabs
- Positive Screw Terminal Connectors

SPECIFICATIONS

Dimensions:

DZ209/5

and

DZ209/10

1.75"W x 2.25"H x 0.60"D
(45mm) x (58mm) x (16mm)
(less self-stick mounting tabs)
