## ARCHITECTS' and ENGINEERS' SPECIFICATIONS

The ceiling / public address speaker(s) shall be Alpha Communications® model SP008 or SP008T or approved equal. SP008 shall be an 8 ohm type speaker. SP008T shall be an 8 ohm speaker with a built-in dual 25V/70V line transformer. Speaker shall have standard E.I.A. 4-hole mounting, for installation onto a standard speaker baffle/grille. Speaker(s) shall have a frequency response of 40-17,500 Hz., with a wattage rating of 10 Watts (15 Watts peak). Speaker(s) shall have a 1.0 inch voice coil and 10 oz. ceramic magnet, with paper speaker cone.

## SP008 / SP008T Public Address Speakers

The Alpha Communications® SP008 and SP008T speakers are cost effective ceiling/public address speakers. The model SP008 features a high-quality 8 ohm public address and background music speaker, with excellent voice and music response.

The SP008T is the same as the model SP008, but also includes a built-in dual 25/70 volt line transformer.

The SP008 series speaker is designed to be installed easily, into a standard 8-inch speaker baffle (grille) assembly.

### FEATURES

- High quality 8 inch diameter (round), 8 ohm voice and music speaker
- Can be used with a variety of speaker baffles (grilles)
- 1 year limited factory warranty
- Very competitively priced
