

OV-VPLP-SS St. Steel Entry Station

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The Alpha Communications®/Sentex OV-VPLP-SS flush mount series Telephone Entry System is a complete 'No Phone Bill' type entry system.

The OV-VPLP-SS lobby entry station(s) shall be constructed of laminated 8 gauge 316 stainless steel (or painted steel) and shall include a zinc die-cast marine quality keypad and speaker/microphone. The OV-VPLP-SS series allows for 1 - 2700 apartment capacity.

The contractor shall provide the required components for a complete 'No Phone Bill' type system, including the required RJ71C jacks (from the local phone co.).

Where required the contractor shall furnish and install the required stainless steel alphabetical directory units, 'Dummy' phone, multi-entrance adaptor, and any other optional components required.

Contractor shall observe all local and national electrical and building codes.

OV-VPLP-SS Vandal-Resistant Series Telephone Entry Systems

The Alpha Communications® OV-VPLP-SS Series Stainless Telephone Entry Systems are designed to resist vandalism, with a number capacity of 1 - 2700 units, with up to 4 entrances. The OV-VPLP-SS entry stations are designed to be used as 'no-phone-bill' type telephone entry systems only. They are available only in an open-voice (loudspeaking) configuration. The OV-VPLP-SS entry stations are made of 316 Stainless Steel, laminated to 8 gauge for the most rugged entry unit available.

FEATURES

- Can be used with either rotary or touch-tone service
- Memory retention during power failure (EEPROM)
- Vandal resistant construction (8 Gauge 316 Stainless Steel)
- Programmable system master code
- Door timer cut-off
- Multiple entrance capability (optional-4 entrances max.)
