

**5651W Video Monitor
(shown in White)**

**ARCHITECTS' AND ENGINEERS'
SPECIFICATIONS**

The flush mount apartment monitor station(s) shall be Alpha Communications®/Elvox™ model 5651W (white) or 5651B (black). Monitor(s) shall be flush mounted (over a model 5509 backbox). Monitors shall include a high quality 4.0" (101.6mm) video screen (measured diagonally). Monitor shall feature open-voice (loudspeaking), without the need for a handset. Monitor shall include a door release button, monitor on button, and contrast/brightness control switch. Monitor shall be constructed of high impact ABS plastic with contrasting imprint. Monitor(s) shall feature electronic call tone signalling from lobby entrance station(s).

Contractor shall observe all local and national electrical codes.

**5651W and 5651B Flush
Open-Voice Apt. Video Monitors**

The Alpha Communications®/Elvox™ 5651W or 5651B apartment house series flush monitors are designed to meet virtually any requirement for low-rise and high-rise apartment video-intercom security.

These attractive monitors flush mount into the wall, by means of a steel backbox/housing (model #5509). In addition, the low profile is maintained due to the fact the the 5651 series monitors are open-voice (loudspeaking) type, and do not use an intercom handset.

All 5651W or 5651B monitors feature a crystal clear 4.0" (101.6mm) black and white monitor (measured diagonally), electronic tone signalling, heavy duty coiled cord, momentary door release button, monitor activation button, contrast control and amplified speaker/microphone, providing Talk and Listen functions.

When combined with our vandal-resistant lobby entry stations and model 6681 amplifier (and related accessories), the 5651W or 5651B monitors are part of a complete building security system.
