

**Ovation 'No Phone Line'  
Central Equipment**

**OV-LP  
Control Unit With Cabinet**  
(for use with Ovation OV-VPLP-SS  
Stainless Steel lobby/entry station  
or with DPW100W Concierge Phone)

**ARCHITECTS' AND ENGINEERS'  
SPECIFICATIONS**

Control unit(s) shall be Alpha Communications®/Sentex model OV-LP with cabinet. Control unit(s) shall be compatible with the OV-VPLP-SS and/or DPW100W series lobby/concierge/guard stations (or other Ovation series masters).

For 'no phone line' service capability include the OV-LP Control Unit, OV-LIBH-3 Relay Board Cabinet (for each 36 lines), OV-LIBH-10 Relay Board Cabinet (for each 120 lines), OV-LIB3 Relay Board (1 per 12 lines/telephones), and a 15CABLE Connector Cable Assembly (1 per OV-LIB3). All equipment should be located in the telephone room. Local phone company shall provide the required RJ71C (12 line) interface jack(s) required.

**OV-LP Control Unit  
With Cabinet**

The Alpha Communications® OV-LP Control Unit with Cabinet is designed to provide 'no phone line capability' when interfaced with the Alpha Communications® OV-VPLP-SS (or equivalent) lobby/entry station or DPW100W (concierge/guard) master/phone station. Each OV-LP can support up to a total of 2,700 remote telephone stations (with the proper support equipment).

**FEATURES**

- Can be used with either rotary or touch-tone service
- No monthly phone line rental fee
- Provides intercom (from lobby) for tenants that do not have outside telephone line service
- Distinctive ring differentiates between visitor calls and incoming calls
- Connection for guard/concierge phone
- Multiple entrance capability (optional)
- Call waiting feature
- DOC and FCC approved

**SPECIFICATIONS**

**Power Required:** 110VAC with plug-in power supply (provided)
