

UM1004WH Flush Adaptor
(shown in White color)

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The HT2000 series handset flush adaptor(s) shall be Alpha®/S.T.R.™ UM1004 series, in White (UM1004WH), Ivory (UM1004IV), Grey (UM1004GR) or Brown (UM1004BR) color.

Flush adaptor(s) shall include a flush plastic housing and matching textured faceplate to handset textured finish.

Contractor shall install as per manufacturers instructions.

UM1004 Series Flush Handset Adaptors

The Alpha®/S.T.R.™ UM1004 flush adaptors are designed to work specifically with any of the HT2000 series intercom handsets, to allow the handsets to be flush mounted into a finished wall.

All UM1004 flush adaptors feature a flush mount plastic wall housing and textured finish front faceplate, to match the handset color (White, Ivory, Grey or Brown) and texture. The UM1004 flush adaptors are available in four (4) colors; UM1004WH (White), UM1004IV (Ivory), UM1004GR (Grey) or UM1004BR (Brown).

FEATURES

- Easy Handset Installation
- Faceplate matches handset color
- Faceplate has channel for neat wire placement
- Faceplate has matching textured finish to handset
- Flush box included
