

## Product Specification Sheet

**DB1T Alphabetical Display Module  
(shown in Titanium)**

### ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

Display Module(s) shall be Alpha Communications®/S.T.R.™ DB1 series or approved equal. Alphabetical display module(s) shall snap into the corresponding MT series modular panel frame(s).

Alphabetical display module(s) shall be finished in Titanium (suffix-T), White (suffix-W) or Brown (suffix-B), and shall feature a high-brightness 2-line LCD display. The DB1 model shall be used in conjunction with the EMDB1 keypad module, BRA receiver board and BRK16 16-station relay card(s), and associated power supplies.

Contractor shall observe all local and national electrical and building codes.

### DB1 Series Alphabetical Display Module for Modular Series Door Stations

The DB1 series alphabetical display modules are designed to be used with Alpha Communications®/S.T.R.™ modular series door entry stations. When used in conjunction with the EMDB1 series keypad module, the DB1 enables a building visitor to easily find and dial an apartment code number.

All DB1 alphabetical display modules feature a high brightness 4-line LCD display, for name and code# display.

Each system utilizing the DB1 alphabetical display module requires a model BRA receiver board, model BRK16 16-station selector relay(s) and the associated NTR211 and NTR201 power supplies.

All DB1 alphabetical display modules are available in three (3) finishes; Titanium (suffix-T), White (suffix-W) or Brown (suffix-B).

All DB1 alphabetical display modules are 3.94" w x 3.94" h (100mm x 100mm), and are made to snap into the MT series modular panel trim frame(s).

To service the DB1 series display modules, once installed, use the model 13510 key / tool unit.
