

**EMVDB1T Vandal-Resistant  
Keypad Module  
(shown in Titanium)**

### **ARCHITECTS' AND ENGINEERS' SPECIFICATIONS**

Vandal-resistant keypad module(s) shall be Alpha Communications®/S.T.R.™ EMVDB1 series or approved equal. Keypad module(s) shall snap into the corresponding MT series modular panel frame(s).

Keypad module(s) shall be finished in Titanium (suffix-T), White (suffix-W) or Brown (suffix-B), and shall feature 4mm thick machined aluminum faceplate and plug-in connector for easy wiring. The EMVDB1 model shall be used in conjunction with the DB1 alphabetical display module, BRA receiver board and BRK16 16-station relay card(s), and associated power supplies.

Contractor shall observe all local and national electrical and building codes.

### **EMVDB1 Series Vandal-Resistant Keypad Module for Modular Series Door Stations**

The EMVDB1 series vandal-resistant keypad modules are designed to be used with Alpha Communications®/S.T.R.™ modular series door entry stations. When used in conjunction with the DB1 series display module, the EMVDB1 enables a building visitor to easily find and dial an apartment code number.

All EMVDB1 keypad modules feature 4mm thick machined aluminum faceplates, metal buttons and plug-in connector for easy wiring.

Each system utilizing the EMVDB1 keypad module requires a model BRA receiver board, model BRK16 16-station selector relay(s) and the associates NTR211 and NTR201 power supplies.

All EMVDB1 keypad modules and are available in three (3) finishes; Titanium (suffix-T), White (suffix-W) or Brown (suffix-B).

All EMVDB1 keypad modules are 3.94" w x 3.94" h (100mm x 100mm), and are made to snap into the MT series modular panel trim frame(s).

To service the EMVDB1 series display modules, once installed, use the model 13510 key / tool unit.
