## PK510 Power Supply/PC Interconnect Assembly

The Alpha Communications® PK510 Power Supply/PC Interconnect Assembly supplies 12VDC at 200mA to the NC510 Receiver. The PK510 also enables communication between the NC510 Receiver and the NC501 Master Station Computer in the Tek-CARE®500 Wireless Emergency Call System.

As of 12/2005 the PK510 is now included with the NC510 Receiver, but it can also be purchased separately.

### ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The Power Supply/PC Interconnect Assembly shall be Alpha Communications®/TekTone PK510 or approved equal. The PK510 shall provide 12 VDC (200mA) power to the NC510 Receiver. The PK510 shall also provide the serial data interface between the NC510 Receiver and the NC501 Master Station Computer in the Tek-CARE®500 Wireless Emergency Call System.

TekTone® has designed the Tek-CARE®500 to work as a system. Its NC501 Master Station Computer has been carefully designed and matched to work with Tek-CARE®500 wireless and wired peripherals. TekTone® will not warrant or support components of Tek-CARE®500 that are purchased separately unless the components are add-ons to previously sold systems. TekTone® will also not warrant or support a system that is a mix of TekTone® and Non-TekTone® parts, unless prior written permission has been obtained. In order to track our systems and to inform facilities of software upgrades, full site information (site name, address and phone number) will be required when ordering. Site information and NC501 warranty number will also be required when requesting technical support.

### FEATURES

- UL Listed Power Supply
- Easy installation
- Cables included

### SPECIFICATIONS

<b>Input:</b>	120 VAC
<b>Output:</b>	12 VDC, 200mA
<b>Power Cable:</b>	6', runs between the NC510 Receiver and a 120 VAC outlet
<b>Serial Cable:</b>	40', runs between the NC510 Receiver and the NC501 Master Station Computer

### REQUIRED COMPONENTS

**Tek-CARE500** Wireless Emergency Call System
