

**KPVM-I-17 (Indoor Model shown)
17.0" Panel PC Station
(shown with AlphaEntry™
v4 software installed
and typical Welcome Screen)**

**ARCHITECTS' AND ENGINEERS'
SPECIFICATIONS**

The Panel PC with 17.0" ~550 NIT (indoor or ~1000 NIT outdoor) 3M capacitive type Touchscreen Monitor(s) shall be Alpha Communications® AlphaEntry™ model KPVM-I-17 (indoor) or KPVM-O-17 (outdoor), or approved equal. The KPVM unit shall include Genuine Windows 7® PRO OS with an Intel® Atom® Processor. The KPVM unit shall feature an 160GB hard disk drive, and integrated audio - stereo speakers. Unit shall be and be made of a rugged painted and welded Aluminum body and faceplate (or optional extra cost finish as directed by the building owner or architect/designer). Unit shall be mounted to the surface of the finished wall using an optional customer-supplied VESA (100mm) mounting bracket, or shall be mounted behind a decorative faceplate (finish, type and size as directed by the building owner or architect/designer). Separate power supply shall be mounted separately.

Contractor shall observe all local and national electrical and building codes.

**KPVM-I-17 Indoor
KPVM-O-17 Outdoor
17" Panel PC Station**

The Alpha Communications® KPVM-I-17 (Indoor) and KPVM-O-17 (Outdoor) Panel PC Stations with 17" touchscreen are used primarily with the AlphaEntry™ software to act as an Entry Master (or Lobby) Station for calling to and from remote communication devices, but can also be used for other system and software applications.

The KPVM series is an all-in-one computer unit that fits both the PC and touchscreen monitor into a stunning, space-saving, yet rugged design. The KPVM series can be mounted on the wall surface using a standard VESA type (100mm) mounting bracket (not included) or the KPVM series can be custom configured by us in a variety of finishes and built-in components. A large 17.0" LCD Panel PC make it ideal for displaying a large amount of data onscreen, and enabling the user to choose from keyboard or Panel PC functionality. Other models are available with 15.0" and 19.0" touchscreens. NOTE: When used in direct sunlight, we recommend the addition of the optional heat shield attachment and rainhood assembly.
