

**FA-PLUS  
Power Supply Unit**

### ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The power supply unit(s) shall be Alpha Communications®/Golmar model FA-PLUS, or approved equal. The FA-PLUS shall be built into a rugged high impact ABS plastic case, and shall be powered by a standard 110VAC electrical outlet. Contractor shall furnish the proper number of FA-PLUS units, depending upon system capacity.

Low voltage wiring shall be used and positive screw terminal and plug-in connectors shall be provided for installation wiring. The FA-PLUS shall be mountable right to the surface of the wall or in a customer-supplied junction box cabinet.

Contractor shall observe all local and national electrical and building codes.

### FA-PLUS Power Supply Unit

The Alpha Communications®/Golmar FA-PLUS power supply unit is used only with the Platea and/or Szena series intercom and/or video-intercom systems. The FA-PLUS provides the intelligent circuitry needed to control the video-intercom system functions.

Each FA-PLUS gets its power from a standard 110VAC plug-in electrical connection. All FA-PLUS field connections are positive screw terminal type, or plug-in type.

Each Platea and/or Szena series system requires a minimum of one FA-PLUS power supply unit.

### FEATURES

- Easily Installs Right on Finished Wall Surface or in Optional Junction Box
- Operates on Safe Low-Voltage Class II Wiring
- Positive Screw Terminal and Plug-in Connectors

### SPECIFICATIONS

<b>Dimensions:</b>	Height: 3.55" (91mm)
	Width: 7.00" (178mm)
	Depth: 2.40" (61mm) from mounting surface
<b>Construction:</b>	High impact Grey ABS plastic case
<b>Connections:</b>	Positive screw terminal and plug-in connectors
<b>Mounting:</b>	Surface-mounted (usually installed near the system amplifier/power supply and other system central equipment).
