

**AP543
Adaptor Plate**

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The adaptor plate(s) shall be Alpha Communications® model AP543 or approved equal and shall be large enough to cover the area occupied by the previous intercom unit. The adaptor plate shall be made of heavy-duty molded hi-impact plastic in a White finish. The adaptor plate(s) shall be punched or drilled by the installer to cover the existing back box. The IS204 or IS543 universal apartment intercom station shall be mounted onto the adaptor plate(s). If required, contractor shall paint the adaptor plate(s) to match the existing wall finish, using a non-peeling type plastic bonding paint.

AP543 Adaptor Plates

The Alpha Communications® AP543 adaptor plates are designed specifically to cover existing oversized apartment intercom back boxes and other existing wall openings, for mounting of the IS204 or IS543 apartment intercom station(s).

Once the adaptor plate is affixed to the wall, you can install your IS204 or IS543 universal apartment intercom station directly onto the adaptor plate, by simply pressing the station onto the front of the adaptor plate.

The model AP543 features a large (center) opening for wire access and you can punch or drill any mounting holes you may need to allow the AP543 to mount to the existing flush back box. The AP543 does not come with any mounting holes provided. Installation is quick, easy, attractive and eliminates the need for plastering and painting over the existing hole.

Custom-sized adaptor plates are also available in aluminum, stainless steel, polished brass, or other painted finishes. Please send a detailed sketch to our sales dept., along with the quantity needed, for a prompt quotation.

FEATURES

- Heavy-duty molded hi-impact plastic
- Easy Installation
- Decorator White Color
- Rugged and Good-Looking
- Large size neatly covers many existing wall openings
- Works perfectly with the IS204 or IS543 universal apartment intercom stations

SPECIFICATIONS

Dimensions: 7.00" W (178mm)
9.00" H (229mm)
0.50" D (13mm) not including depth of the IS204 (or IS543) mounted on top of the AP543

Construction: Heavy-duty molded hi-impact plastic in decorator White color

NOTE: Since these adaptor plates are molded separately from the IS204 and IS543 stations, we cannot guarantee an exact color match between the stations and these adaptor plates!

Due to continuous product improvement, all colors, sizes, materials, finishes and specifications are subject to change without notice.
