

**CE-990 PLUS  
B&W Video Type  
Concierge/Porter  
Switchboard**

**ARCHITECTS' AND ENGINEERS'  
SPECIFICATIONS**

At each master porter switchboard location, contractor shall furnish and install one Alpha Communications®/Golmar model CE-990 PLUS B&W Video Type Concierge/Porter Switchboard, or approved equal, and associated power supplies. Master station shall be desk mount or wall mount (with appropriate adaptor), molded White ABS plastic, and shall have a built-in 4.0" B&W flat tube video screen, 2X16 bias lighted LCD display, call memory and privacy handset. At each remote location, contractor shall furnish and install one (1) compatible video-intercom monitor station.

Contractor shall observe all local and national electrical and building codes.

**CE-990 PLUS  
B&W Video Type  
Porter Switchboard**

The AlphaCommunications®/Golmar CE-990 PLUS B&W Video Type Concierge/Porter Switchboard is a compact, attractive concierge intercom station. It can be used in Luxury Apartment Buildings, Assisted Living Facilities, Dormitories, Health Care Facilities, Hotels, Motels, Schools, Offices, Bowling Alleys and Supermarkets. The CE-990 PLUS provides conversation with remote video-intercom stations as well as door entry station(s). A 2 x 16 bias lighted LCD display annunciates both incoming and outgoing calls, and a built in 4.0" B&W flat tube screen provides a sharp video picture. Call signalling is by pleasant electronic tone. This station is ideal for large building units because many installation problems have been solved by eliminating the use of switching modules, and its large capacity of 255,000 remote stations (up to 255 systems of 1,000 stations each). Call can be made to residents by direct entry of the apartment code or by searching by the tenant name.
