ELM116 16-LED Module

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The 16-station AlphaEcall™ master LED module(s) shall be Alpha Communications® model ELM116 or approved equivalent.

Each ELM116 module shall be mounted in an Alpha Communications®/S.T.R.™ 'MT' series modular mounting frame, in (CHOOSE MASTER FRAME COLOR) Titanium (suffix-T), White (suffix-W) or Brown (suffix-B) color. The 'MT' frame shall be mounted (CHOOSE MOUNTING TYPE) flush (in the wall), surface (on the wall) or desk mount, using the required flush or surface housing or sloped desktop adaptor. Reliable components shall be mounted behind an attractive, clear polycarbonate faceplate. Screw terminal connectors shall be provided for wire connections. Power shall be provided by the AC219 series central power supply/control unit(s).

Contractor shall observe all local and national electrical and building codes.

ELM116 (16-LED) AlphaEcall™ Master Module

The Alpha Communications® ELM116 16-station master module provides LED annunciation of the call status on an AlphaEcall™ emergency-call system, for up to 16 remote locations, with a high-brightness Red LED. Virtually any number of ELM116 modules can be connected together to configure a master station with the call station capacity needed.

Each ELM116 module is designed to be mounted in the Alpha Communications®/S.T.R.™ 'MT' series modular mounting frame, in Titanium (suffix-T), White (suffix-W) or Brown (suffix-B) color. The 'MT' frame can be mounted flush (in the wall), surface (on the wall) or desk mount, using the required flush or surface housing or sloped desktop adaptor.

FEATURES

- 16 High-brightness Red LEDs
- Attractive, modular, polycarbonate plastic faceplate
- Easy, protected remote identification labeling

SPECIFICATIONS

- Dimensions:** Height: 3.94"(100mm)
Width: 3.94"(100mm)
- Construction:** Attractive polycarbonate clear plastic faceplate. LEDs are circuit board mounted.
- Connections:** Screw terminal connectors
- Housing:** Snaps in a standard 'MT' series frame
- LEDs:** 16 Red, high-brightness type
