3947 VANDAL SECURITY DIGIBUS ENTRY PANEL WITH ELECTRONIC DIRECTORY

The Elvox® Galileo Series Vandal Security Panels are designed to be durable and aesthetically pleasing. The 3947 has an integral electronic scrolling directory with a 1200 name capacity (2400 special request) for use in buildings of virtually any size. Cast aluminum, the 3947 is rated to the IP45 vandal-resistance rating. A built in display provides positive readout names and station codes. Cellphone-like keypad operation allows for quick search of residents by jumping to the letter entered via multi-tapping. The 3947 comes complete with camera/speaker/mic and integral infrared illuminator. Standard flush mount or surface with model 332P box.

General information

- Vandal resistant IP45 rated
- Standard recess mount with 320S backbox
- Surface mount with 330P, 332P, 333P backbox/rainhoods.
- Vandal resistant keypad
- 8 Digit LED Readout
- Integral 1200 name electronic directory with search and scrolling features.
